

# Sleep Won't Ever Come

## Best Coast

I close my eyes at the end of the day  
Nothing seems to be going my way  
I've tried it all, I've tried it all  
But my brain just wants to fall asleep Sometimes I'm scared that I won't wake up  
Maybe that's why this process seems so tough  
I've tried it all, I've tried it all  
But my brain just wants to fall asleep Sleep won't ever come  
Sleep won't ever come to me  
Sleep won't ever come to me I blame it on the mood, I blame it on my mood  
I blame it on the world 'cause it can be so cruel  
I've tried it all, I've tried it all  
But my brain just wants to fall asleep Sleep won't ever come  
Sleep won't ever come to me  
Sleep won't ever come to me Sleep won't ever come  
Sleep won't ever come to me  
Sleep won't ever come to me Can't you tell by the look of my face?  
I don't feel like I'm floating through space Sleep won't ever come  
Sleep won't ever come to me  
Sleep won't ever come to me Sleep won't ever come  
Sleep won't ever come to me  
Sleep won't ever come to me
