We Sink

CHVRCHES

We are
I've come apart and you made me
Float like
A pretty box of your evil
So tired
So easy IBleed out
What the fuck were you thinking
We are
Gonna fall if you lead us
Nowhere
No wasted timeI'll be a thorn in your side
Till you die
I'll be a thorn in your side
For always
If we sink
We lift our loveI'll be a thorn in your side
Till you die
I'll be a thorn in your side
For always
If we sink
We lift our loveWe are
Let me stop for a second
Held heart
Only beats in the evening
Low tide
Watching for flightI tell you
To cut it out if you make me
You know why
The slowest spark is a breather
How high
How will you decideI'll be a thorn in your side
Till you die
I'll be a thorn in your side
For always
If we sink
We lift our loveI'll be a thorn in your side
Till you die
I'll be a thorn in your side
For always

If we sink
We lift our loveSo low
You keep stalling
Can you not see why?Say, say, sayLove wasSay, say, sayThat you see cryA simple call seems right
And I know whyI'll be a thorn in your side
Till you die
I'll be a thorn in your side
For always
If we sink
We lift our loveI'll be a thorn in your side
Till you die
I'll be a thorn in your side
For always
If we sink
We lift our love
