

Blacklight

Young Dirty Bastard

Baby, somehow you seem to glow
Take me where history unfolds, whoa I have a blacklight
It makes her radiant
I love my blacklight
My girl's fluorescent Summer of love
One you might have missed
Peace and love and harmony
At a flick of my switch I have a blacklight
It makes her radiant
I love my blacklight
My girl's fluorescent Foxy lady
Come under, get here I have a blacklight
It makes her radiant
I love my blacklight
My girl's fluorescent I love my blacklight, oh
I love my blacklight, yeah, yeah
