That's All Changed Forever

Embrace

There's gotta be something
Worth having
Worth all this
In my life at last one thing
That I can go along with

I lost half of what I could have been
When I realized you weren't meant for me
I wonder which good feeling to go with
Til I realized
That that's all changed
For good
Forever
There's gotta be someone
I can count on and fend for
In my life at last someone
To make me surrender
Cause half of what I should have been
Walks away when you walk out on me
I wonder which good feeling to go with
Til I realized
That that's all changed
For good
No more worries and doubts the good will come out

I've changed
For good
Forever
Wait until you see I've changed
For good
Forever
Say you'll see how much I've changed
For good
For ever
Wait until you see I've changed
For good
For good
Just wait until you see
How much a change could make

You see
Cause you don't know better than me
