

# Atta Way to Go

[Don Williams](#)

Atta way to go, you finally broke it off  
Atta way to go, we can't even talk or cry  
Or even wonder why that a way to go Didn't you believe me when I loved you  
I guess you thought we were playing games  
All this time I tried to think I've known you  
I guess I really only knew your name Atta way to go, you finally broke it off  
Atta way to go, we can't even talk or cry  
Or even wonder why that a way to go I thought you knew I lived my life just for you  
There was just no price to big to pay  
And even though I know I still live for you  
The feeling's that you show won't let me stay
