

Your Love

Boyz II Men

Your, your, your, your love Oh, it's gettin' hot in here
So turn the lights down low
And let just move our bodies in control
You know what I need sweetie
Take this time and you will succeed
In loving me the way I like it, your love Your love is too hot
I can feel your love running through my mind
Nobody loves me, you're a one of a kind
Your love
Your love is too hot
Your love Stop right here, baby
I can't take it anymore
It's just the way you move
And the way your kisses groove
Love is on the rise
And caress me with surprises
Of your love, love I love it when you hold me
'Cause you hold me so tight
And I love it when you keep my attention
Sharing love beyond mention Your love is so right
And I'll never have to look for another
Your love
Your love is so right
Moving all down my spine Your love is too hot
I can feel your love running through my mind
Nobody loves me, you're a one of a kind
Your love
Your love is too hot
Your love is aggressive but smooth, takes me flat on my face I love it when you hold me
'Cause you hold me so tight
And I love it when you keep my attention
Sharing love beyond mention
Your love is, your love is so right I'm convinced
I've got sense
I'll never look for anyone else
It's your love Your love is so right
Moving all down my spine
You make me wanna lose my mind
Your love Your love

Feels so good I want, I want some more
Your love is so right
I love it when you hold me Your love is too hot
And I can feel your love runnin' through my mind
Nobody loves me, you're a one of a kind
Your love
Your love is too hot I love it when you hold me
Your love
Your love is so right
