

# Something's Wrong

## Daylight Industries

When your pubic hair's on fire, something's wrong  
When you think you're the Messiah, something's wrong  
    You mistake a plane for Venus, something's wrong  
When your girlfriend's got a penis, something's wrong, something's wrong  
    Something's wrong  
    Something's wrong  
When you like music more than life, something's wrong  
    You start sleeping as you drive, something's wrong  
    When your favorite drink is thinner, something's wrong  
When you're proud to be a sinner, something's wrong, something's wrong  
    Something's wrong  
    Something's wrong  
    When a canary drives a tractor, something's wrong  
    When your president's an actor, something's wrong  
    When your jacket's plagued with dandruff, something's wrong  
If you think that this song matters, something's wrong, something's wrong  
    Something's wrong  
    Something's wrong  
    Something's wrong  
    Something's wrong  
    Something's wrong  
    Something's wrong
