

Slow Road To Jesus

[Andrew Combs](#)

Busted and broken
Alone again
On a darker side of
Well I'm lost I'm cold so I'm drunk again
Such a strange but sweet melody
I don't need your sun to shine
Just the warm glow of your wine
On the slow road to Jesus
Chasing my troubles away
On the slow road to Jesus
Lord know I'll get there someday
Not long ago I had money to blow
And women so easily
When push came to shove and I found out that love was just smoke and a warm place to be
Don't shine your light tonight on me
Cus I'm right where I want to be
On the slow road to Jesus
Chasing my troubles away
On the slow road to Jesus
Lord knows I'll get there
Finally forget where I spent all my troubles someday
On the slow road to Jesus
Chasing my troubles away
On the slow road to Jesus
Lord knows I'll get there
Finally forget where I spent all my troubles someday
Finally forget where I spent all my troubles someday
