Wonderfully Made

Joel Ansett

I have troubles sleeping when you're sleeping next to me
Keep myself awake because you're better than my dreams
And as much as I'd like to get some sleep,

I'd rather whisper in your ear, the truth I want you so to hear

You are, you are
Wonderfully made, wonderfully made
You are, you are
Wonderfully made, wonderfully made

When the day is breaking and the beauty worry starts
The devils on your shoulder make you question who you are
We will sing this melody and watch the demons flee
And I pray the way I treat you always helps you to believe

You are, You are
Wonderfully made, Wonderfully made
You are, You are
Wonderfully made, Wonderfully made

The words that hurt you the most
Even after years gone by that go in your mind everyday it's staying close
And once you've heard a lie
So many times it gets to hard to deny, hard to erase it
Unless there's a truth to replace
Let's replace it now

You are, you are
Wonderfully made, wonderfully made
You are, you are
Wonderfully made, wonderfully made
You are, you are
Wonderfully made, wonderfully made
