Give You Hell

The Crown

Now it's time for you to be afraid of the dark!

Searching... when the lights go out the streets are mine
Hunting... my life is war and now I'm pissed
Fighting... you better keep out of my sight
Enemy... I'm gonna strike you with naked fist

Can't you see what your lies have done to me?
In for the kill!
You rule the world, but I can't see a reason why!
In for the kill!
Don't you try! Don't you try to bring me down!
In for the kill!
Primed for hate, prepared to fight, I'm gonna win!
I'll give you...

Prowling... like the insane hungry starving wolf
Hiding... Outside your window in the black
Wanting... you're like the little well-fed lamb
Sweet revenge... you've ruined my life now I fight back!

Can't you see what your lies have done to me?
In for the kill!
You rule the world, but I can't see a reason why!
In for the kill!
Don't you try! Don't you try to bring me down!
In for the kill!
Primed for hate, prepared to fight, I'm gonna win!
I'll give you Hell!

Pray to God and send more cops!

Searching... the lights go out, another dies
Hunting... Bringing war, I'm drawing near
Fighting... This time you're gonna pay the price
Suit & tie... I'll make you scream in naked fear!

Can't you see what your lies have done to me?
In for the kill!
You rule the world, but I can't see a reason why!

In for the kill!
Don't you try! Don't you try to bring me down!
In for the kill!
Primed for hate, prepared to fight, I'm gonna win!
I'll give you Hell!
