Before My Time

J. Ralph

(feat. Scarlett Johansson and Joshua Bell)

Cold Feet, don't fail me now
So much left to do
If i should run ten thousand miles home
Would you be there?

Just a taste of things to come
I still still smile

But i don't wanna die alone
I don't wanna die alone
Way before my time

Keep calm and carry on
No worse for the wear

I don't wanna die alone
I don't wanna die alone
Way before my time

Is it any wonder
All this empty air
I'm drowning in the laughter
Way before my time has come
