

# Before My Time

**J. Ralph**

(feat. Scarlett Johansson and Joshua Bell)

Cold Feet, don't fail me now  
So much left to do  
If i should run ten thousand miles home  
Would you be there?

Just a taste of things to come  
I still still smile

But i don't wanna die alone  
I don't wanna die alone  
Way before my time

Keep calm and carry on  
No worse for the wear

I don't wanna die alone  
I don't wanna die alone  
Way before my time

Is it any wonder  
All this empty air  
I'm drowning in the laughter  
Way before my time has come
