

# The Scientist

## Corinne Bailey Rae

Come up to meet you, tell you I'm sorry  
You don't know how lovely you areI had to find you  
    Tell you I need you  
    Tell you I set you apartTell me your secrets  
        And ask me your questions  
    Oh, let's go back to the startRunning in circles  
        Coming up tails  
    Heads on a science apartNobody said it was easy  
        It's such a shame for us to part  
        Nobody said it was easy  
No one ever said it would be this hardOh, take me back to the startI was just guessing  
    At numbers and figures  
    Pulling the puzzles apartQuestions of science  
        Science and progress  
    Do not speak as loud as my heartTell me you love me  
        Come back and haunt me  
        Oh, and I rush to the startRunning in circles  
            Chasing our tails  
    Coming back as we areNobody said it was easy  
        Oh, it's such a shame for us to part  
        Nobody said it was easy  
No one ever said it would be so hardI'm going back to the startOh Come up to meet you, tell you I'm sorry  
    You don't know how lovely you areI had to find you  
        Tell you I need you  
        Tell you I set you apartTell me your secrets  
            And ask me your questions  
    Oh, let's go back to the startRunning in circles  
        Coming up tails  
    Heads on a science apartNobody said it was easy  
        It's such a shame for us to part  
        Nobody said it was easy  
No one ever said it would be this hardOh, take me back to the startI was just guessing  
    At numbers and figures  
    Pulling the puzzles apartQuestions of science  
        Science and progress  
    Do not speak as loud as my heartTell me you love me  
        Come back and haunt me  
        Oh, and I rush to the startRunning in circles  
            Chasing our tails

Coming back as we are  
Nobody said it was easy  
Oh, it's such a shame for us to part  
    Nobody said it was easy  
    No one ever said it would be so hard
