Stoned

Arkarna

The lights are on but no-ones home
I'm helpless and fully grown
i know you'll see me through
Cos you're all like brotheres I've lost
Since we've been away so long
We are united getting wasted
It's such a perfect day
I don't care
Cos I'm stoned, never going home, never going anywhere, anywhere
Again, Yes I'm stoned, never going home, never going anywhere again
I want to get higher than Bobby Gilespie
I'll do it if my body lets me
It's your party so cry if you want to
cos nobody cares, nobody cares
Cos we're all stoned, never going home, never going anywhere again

The nights are long the days go fast
I'm late but I'm here to last is that just the way it is
and I know I'll finish this song
Just one more day, it won't be long
And my ex girlfriend felt neglected
I'm seeing double, it's twice the fun
Two of you for the price of one
Mother nature, we left shattered in pieces
Tell me does nobody care, no, nobody cares
Cos your all stoned, never going home, never going anywhere, anywhere
Again, Yes I'm stoned, never going home, never going anywhere again
And I'm stoned, never going home, never going anywhere again
I'm stoned, never going anywhere again, never going anywhere again
