

Run Right To You

Hollis Brown

Can't slow me down
Can't shove me under water
Like the howlin' sun I'll be right up on your back
Gonna break the land
Gonna show you just what I can do
When I come on home I'm gonna bring you the sky
I wanna bring it to you, I wanna bring it to you
I wanna bring it to you, I'm gonna bring it to you
Been out all night Gonna hide out under cover
Been burning fast Got to put out the fire
Gonna change my clothes
Why don't you meet me in the city
Need to play some music
Just to settle my mind
I wanna play it for you, I wanna play it for you
I wanna play it for you, I wanna play it for you
I've been looking everywhere I go...
I've been looking, I've been looking...
Just another day out here living in the shadows
Running late again cause I misplaced my place
Empires fall
Mine is still up on its stilts now
When I meet your smile I'm gonna bring it on home
I'm gonna run right to you, I'm gonna run right to you
I'm gonna run right to you, I'm gonna run right to you
I'm gonna run to you baby, I'm gonna run to you baby
I'm gonna run to you baby, I'm gonna run to you now
