

# Counting Stars

## Sugarcult

Hey..

I wanna crawl out of my skin,  
Apologize for all my sins,  
All the things I should have said to you,

Hey..

I can't make it go away,  
Over and over in my brain again  
All the things I should have said to you,

Counting stars wishing I was okay  
Crashing down was my biggest mistake  
I never ever meant to hurt to you  
I only did what I had to  
Counting stars again

Hey..

I take this day by day by day  
Under the covers I'm okay I guess  
Life too short and I feel small

Counting stars Wishing I was okay  
Crashing down was my biggest mistake  
I never ever meant to hurt you  
I only did what I had to

Counting star again X 6
