Drawing Flies

Elf Power

i was alive
trying to survive
living a life of simple things
having a dream
feeling obscene
wanting to be the one you needcan hear no any bells
can hear no screams
can't seem to turn off the machinesswallowed in smoke
wanting to choke
wondering where the end will be
walking alone
talking to walls
hearing the things they say to mecan hear no any bells
can hear no screams
can't seem to turn off the machinesdrawing flies
in the street
long gone
were you ever there?
i see the pictures everywhereoh i can be found
moving around
turning in circles endlessly
floating in air
nobody cares
they can't reach inside of mecan hear no any bells
can hear no screams
can't seem to turn off the machines
