Miscellaneous

If They Only Knew

I could love you for the rest of my life

Set it off right, you be my wife

We make moves (uh huh) dang if they only knew,

Ill never hurt you

Verse 1:

They say you do me wrong

They say I can't be strong

Are we the only ones who,

All: Can see what's goin' on?

They say that you and me

Were never meant to be

I wish that they knew about our love

How much you mean to me

I was the only one to ever wanna be

The kind of man to take your hand and love you

faithfully...

Chorus:

Why don't they just try, try and realize that you make

it all right when you look in to my eyes,

Wish they can see what you do to me,

If they knew how I feel

I'm still in love with you.(I still love you!)

Verse 2:

They don't see what I see

They don't see you and me

They think? made of crystal and diamond rings,

They need to realize

That when I see your eyes

It makes me happy just be in you life(Open your eyes)

Deeper Inside,

It's more that it seems,

If they only knew you're the girl of my dreams, baby.

(Chorus)I got love for You

Your mom says forget it you will never be a lawyer,

Thinkin' bout the time back when I first saw you,
