

Like a Bird (feat. Zakk Wylde)

Black Label Society

I sit back and I close my eyes
Lookin' back at all the lows and all the highs
Through the black and white and the in between
All the miles I've walked, the wars I've fought and all I've seen
It all seems like yesterday, oh
Like a bird, time just flies
No sooner than you've said hello
It's time, it's time, it's time to say goodbye
Consumed by worry, stress and fear, never learning to live
Weighed down by wondering why we're here
Collected memories, all that's in the end
I guess a sense of peace wasn't meant for some, my friend
It all seems like yesterday, oh
Like a bird, time just flies
No sooner than you've said hello
It's time, it's time, it's time to say goodbye
Goodbye, goodbye, goodbye
