Gasoline

Didi Benami

'GASOLINE'
DIDI BENAMI/JUSTIN GRAY/ CHRIS SEEFRIEDWe built this house just to burn it down
We said it all but did we ever talk it out?
If hopes a spark that lights the dark
Then Ill stand here until it starts to fall apartYou can't fight fire with Gasoline
Or unspeak words we didn't mean
We're like burning matches in the wind
But I still cant give in
Love is hanging by a string
One misstep and everything
Starts to fray and break apart
Like sinking ships and falling, falling starsAll these walls are suddenly so small
They used to scream so loud now I cant hear them at all
Every breath of sacrifice
I paid my dues the devils price
Just to find just in timeYou cant fight fire with gasoline
Or unspeak words we didn't mean
We're like burning matches in the wind
But I still cant give in
Love is hanging by a string
One misstep and everything
Starts to fray and break apart
Like sinking ships and falling, falling starsI know that you know its not over
I know that you know its not over2012
