Spider

Overworld

Have you ever looked up into the sky and wondered why it's black
Ever asked yourself why you give and never get anything back
Ever had a scar that never healed as time went by
Ever felt like everything you've been told has been a lieWhy won't you escape now
Why won't you escape now
Fall into pleasure as time passes by
I'll think of you wrapped up insideHave you ever dived in the deepest sea to find out what it meant
Ever asked yourself if she was heavensent
Ever looked for meaning in a place you've never known
Ever met somebody who deserved to die alone
CatharsisI don't know how
I don't know why
But ignorance is bliss
If we turn blind
This infection of the mind remains
A spider in my headAll I see is black and white
All I see is black and whiteWhy resist, why resist
(Blackout)
Why resist, why resist
(Blackout)
Why do we stay blind
Stay blindAll the insects feed on my mind as madness closes in
No escape from this world I built, sealed shut within
All the insects feed on my mind as madness closes in
No escape from this world I built, left to regret
CatharsisAnd I know you're afraidI don't know how
I don't know why
But ignorance is bliss
If we turn blind
This infection of the mind remains
A spiderDon't be afraid
I'll take you away
If I can't have you, then nobody will
Because
You're the spider in my head
