

Careful What You Pack

They Might Be Giants

The known, the unknown and the under-known
Look at what she found
Digging all around
By the goldfish pond She's gonna get in trouble now
Shaking up the bees, swinging from that tree
Doesn't understand
She's in trouble now It's a new year, careful what you pack
There's no going back
She's lost from the beginning
She's the new girl She thinks she's smart, she's just curious
She thinks she's alone
Doesn't even know
Someone's watching her She's gonna get in trouble now
Waving from the shore, never knew before
Doesn't understand
She's in trouble now It's a new year, careful what you pack
There's no going back
She's lost from the beginning
She's the new girl Careful what you pack
There's no going back
She's lost from the beginning
She's the new girl
