

What Are We Waiting For?

Duncan James

Everybody wants to love somebody
It's really simple but it's not that easy
Everybody needs some reassuring
But when you break it down
They don't believe it
Everybody dreams of the perfect ending
But it's not a film and I'm not pretending
So won't you tell me
Does everybody feel the same
Like you and me, why can't you
Help me we've only got ourselves to blame
Just you and me, why can't we fly
Maybe if we jump together
Just you and me believe so
What are we waiting for
Did i show you something
A little bit frightening
I didn't mean to scare you
But I thought you should know
That I need my distance
But I want you closer
Am I making sense
'Cause I don't think so
And you're a wild thing
You're gonna take your freedom
And remember eve in the garden of Eden
So won't you tell me
Does everybody feel the same
Like you and me, why can't you
Help me we've only got ourselves to blame
Just you and me why can't we fly
Maybe if we jump together
Just you and me believe so
What are we waiting for
Isn't there something better
Just a little more
We can live and die this way
Don't you know
So won't you tell me

Does everybody feel the same
Like you and me, why can't you
Help me we've only got ourselves to blame
Just you and me why can't we fly
Maybe if we jump together
Just you and me believe so
What are we waiting for
Are we waiting for, yeah, yeah
What are we waiting for, yeah, yeah
What are we waiting for
