

Keep the Love Alive

ScholarMan

1st Verse

Aww man I?m feeling good with you / what?s really good with you? / I?m trying to do whatever I can or should
with you / I see your modesty / humbleness / I can see / like Jagged Edge / with you is where I gotta be / lets
make this house a home / get our Luther Van on / lay the foundation / something we can stand on / caravan of
love / I?m a be the man love / as God as my witness / to the man above / lets take advantage of / the time that
we got now / too many young brothers and sisters are locked down / you and I can change that / rearrange that /
I know we had some rough times / I aint the same cat

CHORUS X2

We keep striving
Keep the love alive and
Pool of bliss that we dived in
Faith we confide in
Our love multiplying

2nd Verse

You?re the reason / believing / achieving / you bring change like the weather / every season / my heart open /
I?m hoping it last long / I give my all on this track like this my last song / I got patience / but admit I?m anxious
/ we a heavenly match / the God?s thank us / I?m not perfect though / we trying to get the perfect flow / keep it
tight / sound advice / doesn?t hurt to know / doesn?t hurt to grow / expand and birth some more / I?m talking
seeds indeed / give me three or four / or just one / doesn?t matter because our love strong the main reason I
easily write this love song

CHORUS X2

We keep striving
Keep the love alive and
Pool of bliss that we dived in
Faith we confide in
Our love multiplying

BRIDGE

3rd Verse (TrueBless)

You driving me wild / we got much in common / we on fire alert / ring the alarm and / cant put our flame out /
our hearts are on the same route / we are equals / are love is at the same count / the same measure / same level /

same reading / thru the test of time / we at the same meeting / the same vision / the same goals / lets make it
happen / you and I on one accord / nothing holds us back and / never slacking / we deeper than this music
rapping / keep our love in tact and / growth gotta keep it stacking / that?s what I?m talking about / you and I no
doubt / join hands / lets make moves and walk it out /

CHORUS X3

We keep striving
Keep the love alive and
Pool of bliss that we dived in
Faith we confide in
Our love multiplying
