Depressed

D.H.T.

I wander through the world
No meaning in my life
My mind is driving me insane
The hurt I've kept all years
So much want it to end
Don't want to live with this painI cannot follow through
As a downward sees a joy
Provide my mind with a cure
As I need to get my high
To choose to help me fly
Is a cost of my sorrow and my painOh god please let me go
Let me leave the misery
I'm so tired in my head
Can't keep on living like this
Cause I have no life you see
I shall end my own miseryOh god please let me go
Let me leave the misery
I'm so tired in my head
Can't keep on living like this
Cause I have no life you see
I shall end my own miseryI wander through the world
No meaning in my life
My mind is driving me insane
