

# Show Me The Light

## Mystery Jets

So here we are in the dark  
Don't the day feel like a world apart?  
I start to come undone  
When I'm living on the other side of the sun But sometimes I feel  
That it's all too much to take  
I look in the mirror  
But don't recognize my face So show me the light  
And tell me that things will turn out right  
It cuts like a knife  
When you say things won't turn out right Temptation my old friend  
You've come back to lead me off again  
If you see me acting strange  
You can call but you know I'm out of range But sometimes I feel  
That it's all too much too take  
But all that just changes  
When I look look upon your face So show me the light  
And tell me that things will turn out right  
Remember the night  
And how we would hold each other tight We live for today  
But we've no way of knowing  
What tomorrow holds  
Or where we are going The weather man, he says  
That soon it will be snowing  
The sky at night is dark  
But the stars they don't stop glowing So show me the light  
And tell me that things will turn out right  
It cuts like a knife  
When you say things won't turn out right So show me the light  
And tell me that things will turn out right  
Remember the night  
And how we would hold each other tight  
So show me the light The weather man, he says  
That soon it will be snowing
