# When You're Mine (BBC In Concert)

## Emf

Say to me, I'm feeling fine
I'm on another high ride, lost cause
To save you all from the start of it all
Say to me, you're feeling fine
This time is ours, this time is hype
Talk about it, get on out
Another chance for us allWhen will I see you?
I see the hours passing, I see the days flying by
When will you say it? I need your words saying
When will your words tow the line?
And when you're here, don't be here
'Cause all I see are your lips
And when you smile, smile with grace
'Cause it's the last time, I catch this faceWhen you're mine
When you're mineWhen will you do it?
When will your hands touch mine?
When will I feel yours in mine?
Wen will you say it?
When will your words show me?
When will your words tow the line?
And when you're here, don't be here
'Cause all I see are your lips
And when you smile, smile with grace
'Cause it's the last time, I catch this faceWhen you're mine
Say to me, I'm feeling fine
I'm on another high ride, lost cause
To save you all from the start of it all
When you're mine
Say to me, you're feeling fine
This time is right, this time is ours
Talk about it, get on out
Another chance for us all
When you're mineAnd when you smile, smile with grace
'Cause it's the last time, I catch this face
When you're mine
When you're mineWhen you're mine
Say to me, I'm feeling fine
I'm on another high ride, lost cause
To save you all from the start of it all

When you're mine
Say to me, you're feeling fine
This time is ours, this time is hype
Talk about it, get on out
Another chance for us all
When you're mine
