

Out Of My Mind

Lasgo

I've been waiting for tonight
You give me fever deep inside
It's you and me together
I feel it in my soul
We can last forever
You just make me lose control I can't get you out of my mind
It's silly but I think about you all the time
All you have to do is give me a sign
To make me fall in love, love, love I can't get you out of my mind
It's silly but I think about you all the time
All you have to do is give me a sign
To make me fall in love, love, love When you're dancing close to me
It's for everyone to see
It's you and me together
I feel it in my soul
We can last forever
You just make me lose control You and me
You and me
You and me
It's you and me together
I feel it in my soul
We can last forever
You just make me lose control I can't get you out of my mind
It's silly but I think about you all the time
All you have to do is give me a sign
To make me fall in love, love, love I can't get you out of my mind
It's silly but I think about you all the time
All you have to do is give me a sign
To make me fall in love, love, love
