

Time Bomb

[Amebix](#)

Took me some time to understand the man
He is a fist in the back of my brain
Don't you know we're doing all that we can
The look in his eyes is no look of the sane[Chorus:]
He is..... a timebombTransmit! The signal screams
Tearing the soul apart
Putting an end to dreams
Sewage drips from the foetid heart
When will he understand?
That he has blown my head
That I am crushed
That he is dead
