Pride

Stryper

We all have something to do,
and we all have somewhere
that we're going to.
We all have something to say,
and we'll take down
those who get in our way.
We let the mind control the heart,
tearing the best we have apart.
We've got conviction deep inside,
we've got to let it ride.Tell me why? Pride!
Tell me why.....Two friends who shared the past,
no one could have guessed
that it wouldn't last.
I know it can be restored
if forgiveness is something
that's never ignored.
We can't let fear and jealousy
take everything that we should be.
We can't let life just pass us by
we've got to let it ride.Tell me why? Pride!
Tell me why, tell me why, tell me why.....
