The Final Chapter

Hypocrisy

During some abductions, I'm aware of them Of they're taking sperm samples In many different ways They've done it in many different waysWith tubes, with a like catheters There's one way I not been able to deal with Emotionally or under aggression And that's when there's a being on top of meAnd I can feel it growing stronger And the hate towards them I've got nothing to live for Only to stay as another victimThey've been torturing me my whole life I cannot understand whyFor how long can I go on When they have already raped every inch of me Why won't they leave me alone This is not the life I've chosenIt's time to put an end to this pain I wanna get away from this hellThose black empty eyes is haunting me Hate and sorrow builds up inside I must take my life to be free This will be my final chapter
