

# cousins

## Drag the River

You found a sweater on the ocean floor  
They're gonna find it if you didn't close the door  
You and this model sit outside of the side  
In a house on a street they wouldn't park on at night  
Dad was a risk taker, his was a shoe maker  
You greatest hits 2006, little list maker  
Caught in the melody, you wait in the car  
You were born with ten fingers and you're gonna use them all  
Interest in colors, I discover myself  
If your highlife is gritty, you'll be toasting my health  
If an interest in coats, you should be lining the walls  
When your birth right is interest, you could just accrue it all  
Me and my cousins, and you and your cousins  
It's a line that is always running  
Me and my cousins, and you and your cousins

I can feel it coming  
You can turn your back on the Biddlewood  
You can turn your back on the Biddlewood  
You can turn your back on the Biddlewood  
You can turn your back on the Biddlewood  
Me and my cousins, and you and your cousins  
It's a line that's always running  
Me and my cousins, and you and your cousins  
I can feel it coming  
Me and my cousins, and you and your cousins  
It's a line that's always running  
Me and my cousins, and you and your cousins  
I can feel it coming
