# Teenage Dope Fiend

## Flickerstick

She's like my nicotine
She's like my alcohol
I like the way that it's killing me
killing me
My Teenage Dope Fiend
She's gotta have it all
I like the way she wants it over and over again
(come on, come on, come on)
I love the way she screams
(come on, come on, come on)
My Teenage Dope Fiend
(come on, come on, come on)
I love the way she wants it over and over and over
I love the way she wants it over and over again
She says she wants to meet
Back in the bathroom stall
Cause I'm her fix
And she's my disease, my disease
I love my nicotine
I love my alcohol
I love the way she wants it over and over again
(come on, come on, come on)
I love the way she screams
(come on, come on, come on)
My Teenage Dope Fiend
(come on, come on, come on)
I love the way she wants it over and over and over
I love the way she screams
(come on, come on, come on)
My Teenage Dope Fiend

(come on, come on, come on)
I love the way she wants it over and over and over
I like the way she wants it over and over and over and over again
All I got is now
She's breaking me somehow
It's amazing I'm still breathing
Now
All I got is now

She's breaking me somehow
It's amazing I'm still breathing
Over and over again
Over and over again
(come on, come on, come on)
I love the way she screams
(come on, come on, come on)
My Teenage Dope Fiend
(come on, come on, come on)
I love the way she wants it over and over and over
I love the way she screams
(come on, come on, come on)
My Teenage Dope Fiend
(come on, come on, come on)
I love the way she wants it over and over and over
I love the way she wants it over and over and over
I love the way she wants it
I love the way she wants it
I love the way she wants it
I love the way she wants it
