

# Species

## Eliot Sumner

[Verse 1]

Find me a definition  
I'm confident what I'm not  
I have foreign specifications  
I have foreign specifications  
I want a classification  
Provide me with a tag  
If that's the key to survival here  
Does it help you understand[Chorus]  
I'm not sure about the species  
I'm not sure about the gender  
I'm not sure about the breed  
I'm not sure about the species[Verse 2]  
Come inside the exhibition  
Come and see what it's all about  
We have foreign modifications  
We have foreign modifications  
They're not sure if this is legal  
They're not sure if this was right  
They're not sure about the species  
They're not sure about the species[Chorus]  
Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species[Verse 3]  
Find me a definition  
Or render me unknown  
I have modern specifications  
I have modern specifications  
They're not sure about the species  
They're not sure about the gender  
They're not sure about the breed  
They're not sure about the species[Chorus]  
Before I fall to pieces  
Tell me what's your species

Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species  
Before I fall to pieces  
Tell me what's your species[Outro]  
Tell me what's your species  
Tell me what's your species
