Anesthesia

Luna

I see you comin' down
Your life is flashin before ya
I see you comin' round
You're talking over and overYou know I tried to please ya
You're under anesthesiaI see you comin' down
Too bad there's nothing left over
I don't know what you mean
You're talkin over and overYou know I tried to please ya
You're under anesthesiaYou know I tried to please ya
You're under anesthesiaI see you wakin' up
And now the day is upon ya
The party's over now
You're talkin' over and overYou know I tried to please ya
You're under anesthesia
