

The Comeback

Faron Young

I was the world's champion lover to my baby
Undeclared and I treated baby right
I won every easy round against temptation
And I went right home to baby every night Then I met an old flame that I used to train with
She gave me knock out kisses to the mouth
When baby learned there'd been a main event in secret
Oh she counted ten and threw old champion out But I'll make a comeback comeback this ain't the end
This has been champ will be a champion again
I was punch-drunk to cheat and lose my baby
For the second time they're twice as hard to catch
That's why I'm in training now to ask forgiveness
Getting in condition for my greatest match I'm defending my claim to the title
I just can't lose I've got too much to win
And when I'm sure all the low blows are over
She'll say champ take off those gloves and come on in
