Desert Rain

DEERDUSâ€

I've missed you so much now I'm whole again
Come, come tonight
Just hold me tight
This desert rain you're my guiding lightWe, We were lost
This world of pain
I've missed you so much now I'm whole again
Come, come tonight
Just hold me tight
This desert rain you're my guiding lightWe, we were lost
This world of time
We forgot about love, You forgot about us
Now I am here
Dreams become realI feel like a sand that's blown away
back into the storm
I'm inside this dream
That feels just like a desert rainYou will always have my soul
Hidden dreams and secret words
Missing you
