

Wings On My Heels

Raymond Froggatt

The older I grow the more I know broken hearts don't mend
But I hope you find the joy in your lives your lookin for my friend
And when your cut and you bleed you find your need on me you can depend
Just you pick up your shoes and bring me your blues and I'll be singing round the bend.
It was nice to have known you anyway - you know that all dreams like mine die in the same old way,
And every time you go takes my breath away - but it was nice to have known you anyway
And I'll fly any-where you are you know any distance any star
You all are part of everything I feel you know I got wings and their on my heels.

When it's goodbye my loves .. I wish you good luck
and don't you worry 'bout the rain..
When our time is up .. oh my loves..
you won't owe me anything..

It was just nice to have known you anyway
You know that all dreams like mine die in the same old way..
and everytime you go takes my breath away..

and I'll fly .. anywhere you are..
you know any distance any star..
You all are part of everything I feel..
I got wings and their on my heels.

Instrumental

The older I grow.. the more I know broken hearts don't mend
but I hope you find the joy in your lives .. your looking for my friend
and when your cut and you bleed.. you find your need
and I'll be singin around the bend..
It was nice to have known you anyway
You know that all dreams like mine die in the same old way
and everytime you go it takes my breath away..
It was just nice to have known you all anyway..

and I'll fly etc.
