

# Kerosene Girl

## Young Widows

You used to drive me wild  
I used to look at you dance on the floor  
Never found an open door I don't feel right  
I don't know you  
You don't know me  
You'll never know my name  
My little kerosene girl  
Kerosene girl  
I snuck inside your house  
I snuck inside your room  
And saw you there  
Then continued to torch the place I don't feel right  
I don't know you  
You don't know me  
You'll never know my name  
I'll take to the grave  
I'll take it to cemetery hill  
And watch all those roses wilt  
I don't feel right  
I don't know you  
You don't know me  
You'll never know my name  
My little kerosene girl  
I'll never know my kerosene girl
