

# Cusp

## Goldspot

Feel like I'm drownin' this time

The world seems to laugh out loud  
I'm comin' on back  
Follow me out this time  
Done hanging my head  
Kicking the ground a lot  
I feel like I'm on the cusp  
Of it all It's a strange way but here we come  
It's a new way  
Name she won't start  
And everyone ask me how I been  
Said I'm comin' up on the edge It's a break  
    It's your brake  
    It's your brake  
    I'm on a break  
    It's your brake  
    It's your brake  
    I'm on a break  
    It's your brake  
    It's your brake  
    I'm on a break  
    It's your brake  
  
It's your brake Feel like I'm drownin' this time  
The world seemed to laugh out loud  
Said I'm comin' on back  
Follow me out this time I feel like I'm on the cusp  
Feel like I'm on the cusp  
Of it all
