## Lana Del Rey

I look for you in magazines  
I look for you in magazines  
I look for you in magazines  
I'm taking off my wedding ring I gave you everything  
I gave you everything Give me the bright lights  
Give me the bright lights  
Give me the bright lights Give me the bright lights  
Give me the bright lights  
Give me the bright lights I'm going back to Arbor Dean  
I'm going back to Arbor Dean  
I'm going back to Arbor Dean  
Where when I was a beauty queen It wasn't anything  
It wasn't anything Give me the bright lights  
Give me the bright lights  
Give me the bright lights Give me the bright lights  
Give me the bright lights  
Give me the bright lights I'm waving on the silver screen  
I'm waving on the silver screen  
I'm waving on the trampoline  
I'm waving on the silver screen The film is fading, look at me  
The film is fading, look at me  
The film is fading, look at me  
The film is fading, look at me, look at me Give me the bright lights  
Give me the bright lights  
Give me the bright lights Give me the bright lights  
Give me the bright lights  
Give me the bright lights Give me the bright lights  
Give me the bright lights  
Give me the bright lights Give me the bright lights  
Give me the bright lights
