Storm

Saliva

Life is like a melody
Sang deep within my soul
Sang deep within to me
And all these chains that shackle me
They won't let me take control
They wanna take control of meI've got to rise above my life
To find the reason I'm aliveI'll save myself, I'm all alone
I've opened my heart to see there's nobody home
It's up to me, I'm on my own
The message of life is turning facing the storm
Facing the stormMy life is filled with your memories
You were deep within my heart
You were deep with inside of me
And all this pain that I'm wrapped around
If there's a Heaven up above
I see the angels falling downI've got to rise above my life
To find the reason I'm aliveI'll save myself, I'm all alone
I've opened my heart to see there's nobody home
It's up to me, I'm on my own
The message of life is turning facing the storm
Facing the stormFacing the stormI'll save myself, I'm all alone
I've opened my heart to see there's nobody home
It's up to me, I'm own my own
The message of life is turning facing the storm(The message of life is turning facing the storm)
(The message of life)
Turning facing the storm
(The message of life is turning facing the storm)
(The message of life)
I'm turning facing the storm
