

Gimme That Wine

Blood, Sweat & Tears

(Hendricks)Well my wife got tired of me running 'round, so she tried to keep me home

She hid my clothes,

She broke my nose

But I continued to roam.

Then she finally hit my weak spot - when she threw my bottle out

Well, from the basement to the rooftop, everybody could hear me shout...Gimme that wine (Gimme that wine)

Gimme that wine (Gimme that wine)

Gimme that wine (Gimme that wine)

'Cause I can't cut loose without my juice.

(Got to have my hot Lucy when I go out walking sometimes)One day crossin the avenue, a big car knocked me down.

I was stretched out tying up traffic and crowds came from blocks around

While the police were searchin my pockets, before they sent me to the funeral parlour,

One of those cops touched my bottle, Jack, I jumped straight up and commenced to hollarGimme that wine

(Gimme that wine)

Gimme that wine (Gimme that wine)

Gimme that wine (Gimme that wine)

I just can't get well without MuskatelOne real dark and dreary night while I was staggering home to bed,y'all

A bandit jumped from the shadows and put a blackjack 'side my head.

That cat took my watch, my ring, my money, and I didn't even make a sound,

But when he reached up and got my bottle, you could hear me for blocks aroundGimme that wine (Gimme that wine)

Gimme that wine (Gimme that wine)

Gimme that wine (Gimme that wine)

Beat my head outta shape, but don't touch my grape.One day my house caught fire while I was laying down sleeping off a nap

And when I woke up everything was burning with a pop and a crackle and a snap.

Well the fireman broke up my TV set and they tore my apartment apart,

But when he raised that axe to my bottle, Jack, I just cried with all my heart...I said gimme that wine (Gimme that wine)

Gimme that wine (Gimme that wine)

Gimme that wine (Gimme that wine)

I'll just have one toast before I roast.Gimme that wine (Gimme that wine)

Gimme that wine (Gimme that wine)

Gimme that wine (Gimme that wine)

Nothing but the best for meWine (Gimme that wine)

Just gimme that wine (Gimme that wine)

Gimme that wine (Gimme that wine)

I just can't get well without Muskatel

I got to have some of that brew Gimme that wine (Gimme that wine)
Gimme that wine (Gimme that wine)
Gimme that wine (Gimme that wine)
