

Wine

Jahkoy

(Verse 1)

Excuse me miss

I swear to you

Get a little money

I might spend it on you

Wanna buy you a fancy diamond ring and all

Provide with my time

What is mine is yours

I, would build us a family

A home for you

A little room for me

Until then we should stack some cheddar away

And while we get better with age(Chorus)

I see what you got on girl

I wanna take it off

I mean these lights are kind of heavy on my eyes so

I'm gonna turn em off

If it ain't too much to ask

This is nothing from our past

I stay focused on the goal

So baby would you wine for me

Wine for me

I wanna see you wine for me(Verse 2)

You see me planning

Don't panic

Pace yourself

Babe handle what you can manage

You give me the best of energy

You got the cure, so pure

You have the recipe

I know at times it may not seem that way

But nonetheless, if we progress

We will see better days

Until then we should stack some cheddar away

And while we get better with age(Chorus)

I see what you got on girl

I wanna take it off

I mean these lights are kind of heavy on my eyes so

I'm gonna turn em off

If it ain't too much to ask
This is nothing from our past
I stay focused on the goal
So baby would you wine for me
Wine for me
I wanna see you wine for me(Post)
I wanna see you wine for me
Wine for me
I wanna see you wine for me baby
Said I wanna see you wine for me
Wine for me
Would you wine for me?(Chorus)
I see what you got on girl
I wanna take it off
I mean these lights are kind of heavy on my eyes so
I'm gonna turn em off
If it ain't too much to ask
This is nothing from our past
I stay focused on the goal
So baby would you wine for me
Wine for me
I wanna see you wine for me
