I Remember

Citizens!

I know everybody out here's got you in their slight
I know everybody wants to give their luck a try
I still think about you when I'm all alone at night
I still dream about your love, I'm not giving up without a fightThis is how it goes, this is how it is, this is how we move on nights like this
This is what we do, and this is how we kiss, and this is what we say on nights like thisI remember loving you
Everything was new
I'd do anything to get you back againNobody else has got a soul like yours that's one thing I know
But you kill me, oh darling you kill me, yes you do
Don't you remember how we used to make some sense of the world
Don't you remember how we said that this is the point where boy meets girlThis is how it goes, this is how it is, this is how we move on nights like this
This is what we do, and this is how we kiss, and this is what we say on nights like thisI remember loving you
Everything was new
I'd do anything to get you back again
I recall how the sun came out but we're back in the darkness now
I'd do anything to get you back again
Ho-ho-hoI am not talking about your peace love and understanding
All that I'm talking about is your soul
There was a moment when our two hears became one
And so, if there is no life together, there is no life at allI remember loving you
Everything was new
I'd do anything to get you back again
I remember (loving loving)
I remember (loving loving)
Have I Met You
I remember (loving loving)
I remember (loving loving)
Have I Met You
