The Doberman

Kasabian

Silence in the yard
Doberman's asleep
You never have to lay your head down here
Watch them disappear
The truth is they never had no future
They never had no past
I was alone
I was alone again
This beat on London's sky
Whiskey's almost dry
I smile 'cause I've already escaped
Just like to see how far I can take it

They never had no future
They never had no past
I was alone
I was alone again
They never had no future
They never had no past
I was alone
I was alone again
Silence in the yard
Doberman's asleep
You never have to lay your head down here
Watch them disappear
