

# Every Nigger Is a Star

## Super Cat

Jah Rastafari

Well me look an' me tell dem seh rude boy

And me look an' me tell dem

I and I seh a kingdom that is divided by itself must fail

All for one and one for all, I and I shall be like a green tree

That's planted by the river bank of dunns river falls A weh me tell dem rude boy

African people come follow me, hear this Well, every nigger is an African and also a star

And we know where we coming from and know who we are

Every nigger is an African and also a star

A no brag we a brag and a no blar we a blar

Teeth white like a snow, skin black like a tar

And anytime dem see we a de show we a star Africans donu better cut out de war

United we stand and divided we fall

Oonu hear me Africans oonu better cut out che war

United we stand and divided we Because deep down in a Africa we fore parents roam

When we never did have no need fe no scissors nor comb

When de animals were tamed and we shared de same home

We use to walk up on silver and cook up on gold Drink de cow's milk and den we suck de honey comb

But that was in the days of beginning and old

When exploiter they came with religion unknown

They robbed us our culture an' our kings they dethrone And they carry us in a Babylon true we strong bone

But no matter what they do Jah guiding us home

We a go chase dem crazy bald head out of we town

A we plant de corn and build de cabin alone Well, every nigger is an African and also a star

And we know where we coming from and know who we are

Every nigger is an African and also a star

A no brag we a brag and a no blar we a blar

Teeth white like a snow, skin black like a tar

And anyway you see dem we a de show we a star Africans donu better cut out de war

United we stand and divided we fall

Oonu hear me Africans oonu better cut out che war

United we stand and divided we fall Oonu see the coming of Jah, Jah it id not very far

Him nah go drop out a sky like a falling star

Nor appear like a soldier from 1JR

Him nah go come in a no jet nor na big fast car Him a go come like a thief in a de night from a far

Wid de fire in a him eye like a burning cigar

Hair white like a snow, feet like a brass bar

Nah go come with no 'matic and a no SLR Hear me now super, you haf fe hear ne now star

When Jah Jah come a brimstone fire war

Him nah contribute to no skin color bar  
Neither take no side with no guy weh preach war  
Because, every nigger is an African and also a star  
And we know where we coming from and know who we are  
Every nigger is an African and also a star  
A no brag we a brag and a no blar we a blar  
Teeth white like a snow, skin black like a tar  
And anyway you see dem we a de show we a star  
Africans donu better cut out de war  
United we stand and divided we fall  
Oonu hear me Africans oonu better cut out che war  
United we stand and divided we fall  
Because this is not He-Man an is not thunder  
Neither superman nor the one skeletar  
This is not Tarzan make believe jungle star  
These are the African children wearing the African scar  
Ancient motherland ans she so pretty and far  
Millions of children were stolen from her  
Bought into slavery and sol like a car  
Fe cut sugar cane, cotton and quail cigar  
Under Jah moon and Jah sun and Jah star  
Hear me now super you haf fe hear me now star  
A no brag me a brag no blar me a blar  
Them never make no weapon fe go fight no war  
But, every nigger is an African and also a star  
And we know where we coming from and know who we are  
Every nigger is an African and also a star  
A no brag we a brag and a no blar we a blar  
Teeth white like a snow, skin black like a tar  
And anytime dem see we a de show we a star  
Africans donu better cut out de war  
United we stand and divided we fall
