

## Desert Rose (From "Powerhouse")

## White Heart

Lost in a windswept land  
In a world of shifting sand  
A fragile flower stands apart  
There in that barren ground  
Feel like the only one  
Trying to serve Him with all your heart  
And you wonder, wonder  
Can you last much longer?  
This cloud you are under  
Will it cover you? Desert rose, desert rose  
Don't you worry, don't be lonely  
Heaven knows, Heaven knows  
In a dry and weary land a flower grows  
His desert rose, His desert rose  
Sometimes holiness  
Can seem like emptiness  
When you feel the whole world's laughing eyes  
If it's a lonely day  
Know you're on the Father's way  
He will hear you when you cry  
And He will hold you, hold you  
Your Father will hold you  
He will love you, love you  
For the things you do  
Desert rose, desert rose  
Don't you worry, don't be lonely  
Heaven knows, Heaven knows  
In a dry and weary land a flower grows  
His desert rose, His desert rose  
His desert rose, desert rose  
Don't you worry, don't be lonely  
Heaven knows, Heaven knows  
In a dry and weary land a flower grows  
is desert rose, desert rose  
Desert rose, don't be lonely, don't be lonely  
Desert rose, ooh, don't you worry  
Desert rose, don't you know He'll be with you  
Heaven knows, Heaven knows  
He will call your tattered heart on desert rose
