

# Best Years of Our Life

## Iron Butterfly

It was the best years of our life  
When we were children remember what it's like  
To bring back memories of the good things we once knew  
To be right, there's so much we got tîĴ doCÎĴ me on lift that heavy load of your shoulder  
There's many people like you and me  
That feel like there's a better place to be Better leave, it's time to go now  
Better leave, forget you sorrows  
Come along, people get ready for  
Good time, head for tomorrow  
pack up your body Here they come  
coming to take a ride When we were soft as light  
Those were the best years of our life  
When we laughed as life went by  
Those were the best years of our lives Best years, it's time to go now  
Good times, forget your sorrows  
Best years, you better-believe me baby  
Sunshine, aah - ooo Best years, come on babe  
Good times, summertime in the midnight morning  
Best years, never like a school child  
Sunshine, yeah Best years, aah - ooo, yeah  
Good times, aah - ooo  
Best years, yeah baby  
Sunshine, hahaha  
I feel good babe, I feel good-good-good
