Black Seeds On Virgin Soil

Old Man's Child

[Lyrics by Galder]Trapped in a fire that burns in my soul Like parasites infesting my skin Screaming for vengeance, and vengeance is mine With my faith I will prevail Chained to times of despair As the end is close and my demons are here Craving for my inner thoughts As I die, I'm losing myself For blood I hunger, possessed by the dark No remorse, I'll tear your flesh apart Through my veins the poison runs cold As you die your faith is left untold Preachers of life, opposing the dark side Deceived from the birth Mission of lies, betrayed from the inside Seeds of the unfertile earth Wounds so deep, come heal my soul Come predict, what has been foretold
